Peek Inside the Book

Superorganism, ideas, and the pecking orderthese are the primary forces behind much of human creativity and earthly good. They are the holy trinity of the Lucifer Principle. Howard Bloom, The Lucifer Principle : A Scientific Expedition into the Forces of History

There are no righteous societies; there are simply different degrees of depravity. To Howard Bloom, The Lucifer Principle : A Scientific Expedition into the Forces of History

Reader's Opinions

I love nonfiction. Danny had me read "Blink" and I think he'd like this one too. Basically, the author presents the idea that societies act like giant organism, that the genetic data of the society is not a gene, but a meme. Meme's have a natural desire to expand, and violently so. Also, the pecking order of the multiple societies in...
