Reader's Opinions

If you are at least slightly scientifically or philosophically oriented, the book is a good find. The story captures one's imagination and yet gets its facts right. The main characters are like real world jedis, but what they do is possible, almost. It's a truly fascinating idea. And along the way some very fundamental questions are...

To be honest I found it to be slightly bland...Was expecting more after reading its reviews...Lets just say I skimmed past practically every second page. Overall, its a shelf filler...
